

Ballyrogan Wind Farm

The Ballyrogan Wind Farm invites you to a community drop-in information session to learn more about the proposed project, meet the team, and share your thoughts.

Located on Eastern Maar Country, around 10km south of Ararat, western Victoria. The proposed wind project will have up to 164 turbines, a battery energy storage system, and will connect to the proposed Western Renewables Link near Elmhurst, via a 45km 220kV double circuit overhead transmission line.

We are currently preparing the required planning referrals and are seeking feedback from neighbours, Traditional Owners, stakeholders and the wider community.

RSVP is not required

Please join us:

Session 1

Thursday 26 June 2025
Drop in anytime between
10am and 4pm
