Dear Ed

Re Proposed Bango Wind Farm, via Boorowa

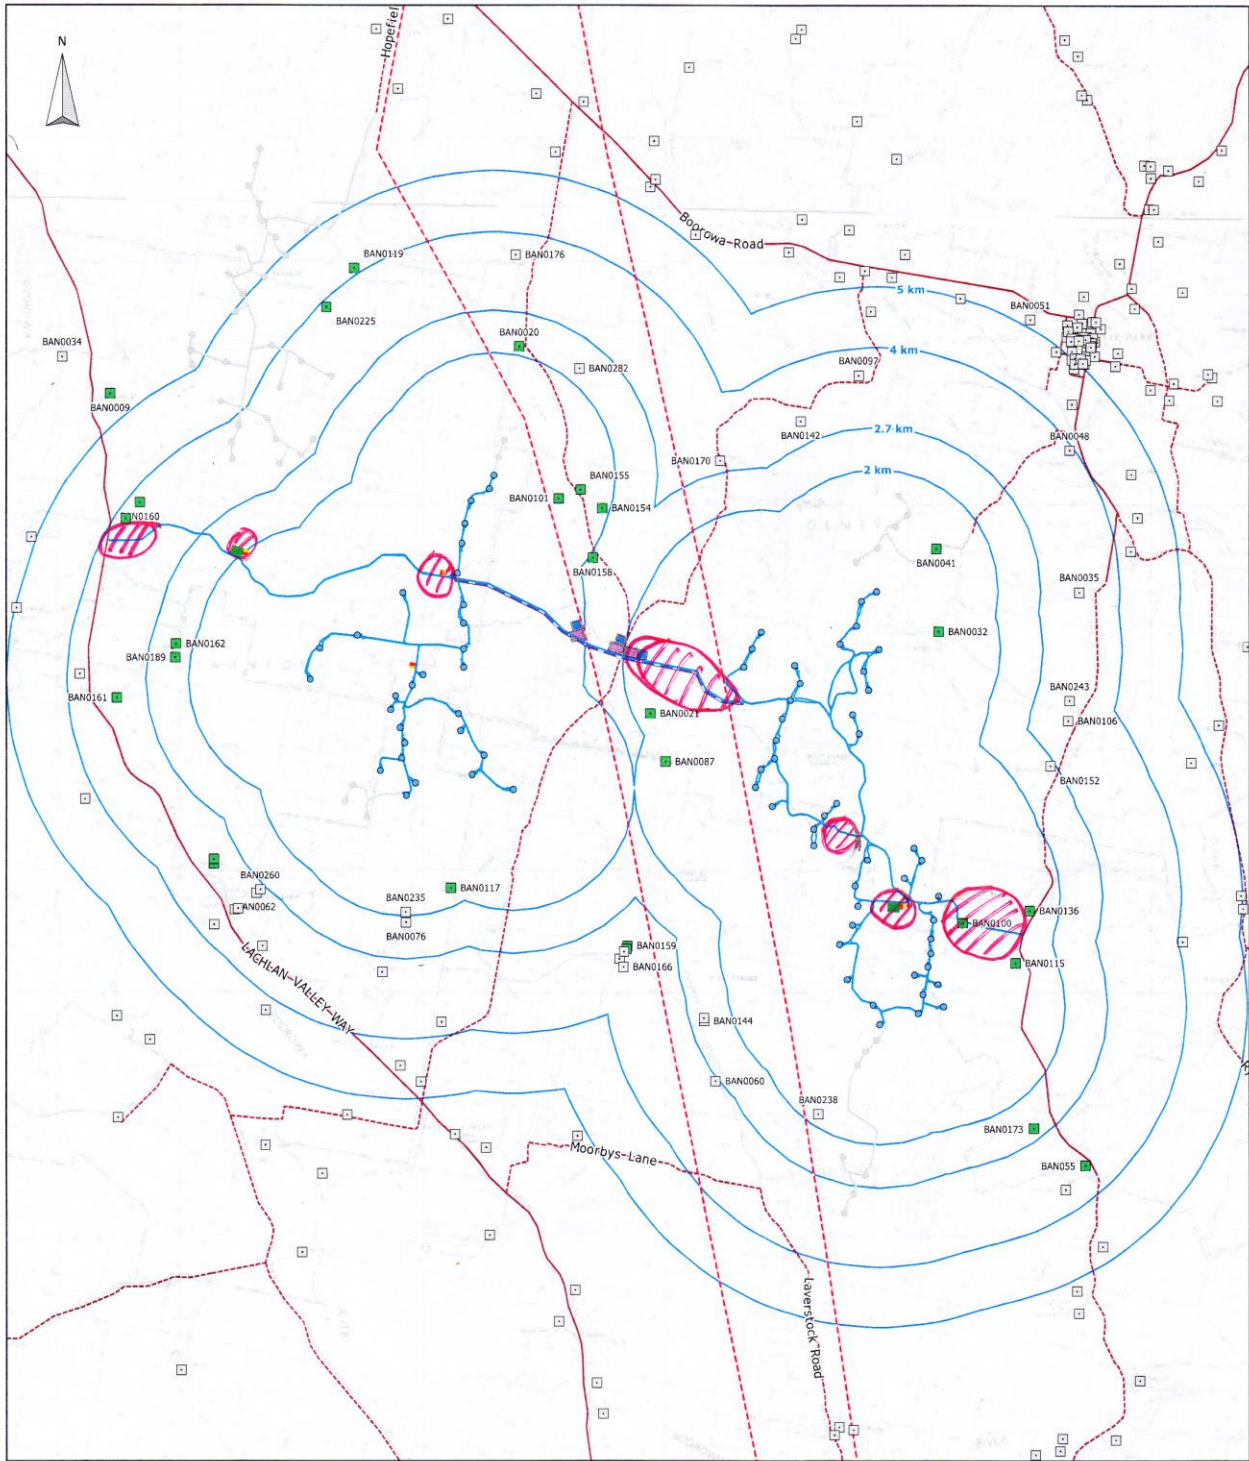

I have conducted a review of the current project layout in respect of the heritage assessment of the Bango Wind Farm conducted by NSW Archaeology in 2012/2013.

This letter is to confirm that the project layout put forward in the Amended DA is consistent with what was assessed previously. Accordingly, the conclusions previously reached in the Heritage Assessment remain valid, to the extent they apply to the reduced foot print.

Yours faithfully

Dr Julie Dibden
New South Wales Archaeology Pty Limited

Dear Julie

Re: Draft Aboriginal Heritage Assessment for Bango Windfarm

Thank you for your email dated 27 March 2013, advising of the above Draft Aboriginal Heritage Assessment at Bango, and requesting input from Buru Ngunawal Aboriginal Corporation (BNAC) as the Traditional Owner group.

As the Traditional Owners, we agree with NSW Archaeology Pty Ltd's draft report for the project, but we are of the belief that decision-making is a collaborative process involving all concerned parties. Being inclusive develops a strong working relationship with respect for opinions and an understanding of values and may increase the understanding of the need to protect our cultural heritage.

If you have any queries, please do not hesitate to contact Walter on the number below, or by email, or myself on 0407 517844.

Thank you for the opportunity to provide comment. We look forward to working with you collaboratively on future projects.

Yours faithfully

Tyrone Bell
Director/Senior Sites Officer
