

# Clarke Creek Wind Farm

Project update

Community Fund

Component deliveries

Christmas closure

## Project update

Work is ramping up at Clarke Creek Wind Farm and we look forward to keeping you updated on project construction progress.

Stage One of Clarke Creek Wind Farm achieved a major milestone recently with the successful installation of the first wind turbine. The turbine, which stands at 207 metres tall and has a capacity of 4.5MW, was built with 13 components including three 76.2m blades.

Another two turbines have now been fully erected with construction of six more well underway. We are also continuing work on site roads and hardstand areas.

We expect to have six fully erected turbines by December this year.

The project will help supply Queensland businesses with renewable electricity through a 15-year offtake agreement with Queensland Government-owned power company Stanwell Corporation.

Stanwell will take 346.5MW of renewable energy capacity from the 450MW wind farm to sell to commercial and industrial customers.

## Clarke Creek Wind Farm Community Fund

Applications are open for the [Clarke Creek Wind Farm Community Fund](#). The Community Fund provide funds to enhance and enrich community initiatives throughout the local community.

There are two types of funding available: scholarship funding to support education, and community funding to support community groups and projects that provide a local community benefit.

Scan the QR code for more information. Scholarship applications close Friday 24 November 2023.

The Community Fund is open for minor and major grants and applications close Friday 16 February 2024.

## Component deliveries

The 1,300 oversize overmass (OSOM) component deliveries are now underway from Gladstone Port, with deliveries taking place overnight with a police escort.

We have multiple electronic signage boards in use along the route for drivers and have set up an SMS messaging system to provide up-to-date information to the community.

If you are not already receiving SMS notifications and would like to, please email [clarkecreek@squadronenergy.com](mailto:clarkecreek@squadronenergy.com) or phone **0483 915 303** to sign up for SMS notifications for the OSOM transport movements.

## Christmas closure

The Clarke Creek Wind Farm site will be closed over the Christmas period from Thursday 21 December 2023 and will reopen on Monday 8 January 2024.

There will be no OSOM transport movements from 19 December 2023 to 8 January 2024. Opt in for SMS notifications of transport movements for up-to-date information.
