

# Dubbo Firming Power Station

Project  
update

Preparing for  
construction

Grid  
connection

Community

## Project update

Dubbo Firming Power Station has been approved by the NSW Department of Planning, Housing and Infrastructure (DPHI) and the NSW Independent Planning Commission (IPC).

The State Significant Development Application and Environmental Impact Statement (EIS) has been assessed and the project has received development consent, which sets the conditions for how the project will be constructed and operated.

Additionally, the Commonwealth Department of Climate Change, Energy and the Environment has determined that no additional approval is required under the Environment Protection and Biodiversity Conservation Act 1999 (EPBC Act).

This is a major milestone for the project and we are grateful to everyone who provided feedback and engaged with us during the consultation and planning phases.

development consent.

## Preparing for construction

We are working on building a team to deliver Dubbo Firming Power Station.

As part of this process, we will develop our construction management plans. Once finalised, these plans will be shared with our stakeholders.

## Electricity network connection

While we prepare for construction, the project team continues to work through the approval process for our electricity network connection. We expect our technical studies will be completed by June 2024 followed by the submission of our grid connection application to the network operator Essential Energy.

## Community sponsorship

Dubbo Firming Power Station is proud to be sponsoring a range of community events this year, including the 2024 Dubbo Stampede.

The annual running festival will take place on 25 August at Taronga Western Plains Zoo. Please visit [www.dubbostampede.com.au](http://www.dubbostampede.com.au) for more information. We hope to see you there.

Applications are open for community sponsorship, for more information and application form, visit [www.squadronenergy.com/communitysponsorship](http://www.squadronenergy.com/communitysponsorship) or scan the QR code.

Feel free to contact us if you have any queries or comments about the project.
