

Jeremiah Wind Farm Community Information session

Thank you to all who made it to the community drop in session last week at the Adjungbilly Community Hall. We had a great turnout and the Adjungbilly Public School P&C put on some delicious treats and dinner for the event.

The Bongongo Public School students got involved in an art and turbine making activity and were able to learn more about wind farm technology from our staff.

For those who were unable to make it to the event, you can read more about the project in our first community newsletter here:

[Read full newsletter](#)

Community consultation is a key part of the development process and the current focus of our activities. Feedback from the community helps shape the development during the formal planning process. We are seeking feedback from the local community to better understand the scenic values of the region via a simple questionnaire. You can participate using the link below:

[Community Survey](#)

Please don't hesitate to get in touch if you have any questions or would like to find a time to meet with the project team. We are in the area regularly and welcome the chance to meet and discuss the project with you.

Kind Regards,
Jessica Petersen
