Project update

As we approach the end of the year, the Jeremiah Wind Farm team - Jess, Thomas, Nadine and Oli - would like to extend our thanks for your continued interest and involvement in the project.

We wish you a safe and happy holiday season, and we look forward to continuing our collaboration in the year ahead.

Jeremiah Wind Farm in the community

This year, we were excited to partner with so many local groups and organisations between Jugiong and Tumut to support the delivery of the following community events, programs, and infrastructure:

- Tumut Show
- Falling Leaf Festival Tumut
- Jugiong PS: small schools bush camp
- Tumut Bulls: Grandstand works
- Tumut Off-Grid Fitness event
- Landcare: Gatleys Creek
- Crawford Charity Camp Draft (2025)

Our sponsorship program is open and we encourage local groups to apply. If you are interested in applying for sponsorship, please visit www.squadronenergy.com/communitysponsorship

Landcare: Gatleys Creek

Jugiong PS: small schools bush camp

Riverina St George Dragons Community Blitz

In June, we visited 11 local schools in the Tumut and Gundagai region and supported two community clinics with the Gundagai Tigers and Tumut Blues. This was in partnership with the St George Illawarra Dragons to deliver their Best You Can Be program.

Planning

In June 2024, the Department of Planning, Housing and Infrastructure extended the Secretary’s Environmental Assessment Requirements (SEARs) for the project, incorporating legislative changes made since the submission of the Jeremiah Wind Farm Scoping Report in 2021. This adjustment ensures that the project’s Environmental Impact Statement (EIS) addresses current environmental legislation, policies and guidelines. We will keep the community informed as the project progresses.

Company update

It has been a busy year for Squadron Energy. We are 100% Australian owned with 1.1 gigawatts (GW) of renewable energy in operation and 900MW under construction.

Find out more about our progress this year in our Year in review and our FY2024 Sustainability Report.

Our impact to date

7m

tonnes of emissions avoided

2,100

direct jobs created

\$350m

regional investment

Current status

Operational:

1.1GW

5 wind farms

In construction:

900MW

2 wind farms
