PROJECT UPDATE

The Spicers Creek Wind Farm team at CWP Renewables have been progressing feasibility investigations for the project, including assessment of preliminary biodiversity, transportation routes and preliminary civil and electrical design.

Based on the outcome of these studies and ongoing community feedback, we are adopting a staged approach to developing Spicers Creek Wind Farm. The area being investigated for Stage 1 of the project is located on the northern side of Gollan Road, within the area bounded by the Golden Highway to the north, Saxa Road to the west and the current electricity transmission corridor being assessed by TransGrid to the east. The Stage 1 investigation area sits within two Local Government Areas – Dubbo Regional Council and Warrumbungle Shire Council.

A map of the project investigation area is shown on page 2.

Further investigation of the Stage 1 area is continuing to help shape the project layout, including detailed biodiversity field assessments during Spring 2021. Investigations in the broader area proposed for the Spicers Creek Wind Farm to the south of Gollan Road will continue. However, as this area will take longer to plan effectively, it is likely to be developed as a second stage of the project.

COMMUNITY SPONSORSHIP

A reminder that the Spicers Creek Community Sponsorship Program is now open to provide funding or in-kind support to local community organisations and/or community-based activities, events and initiatives.

The Community Sponsorship Program Guidelines and Application Form are available at <https://cwprenewables.com/community>

CONTACT US

CWP Renewables is committed to ongoing dialogue with the community and project stakeholders. Please feel free to get in touch with us if you have questions or would like further information.
