Subject: Uungula Wind – Traffic Management Plan (Ver 004B)

Dear Ms Kidziak,

I refer to the Traffic Management Plan submitted for review and approval in accordance with Schedule 2, Condition B33 of the Development Consent for the Uungula Wind Farm (SSD 6687).

I note the Traffic Management Plan has been prepared in consultation with TfNSW and contains the information required by the relevant conditions of approval.

Traffic Guidance Schemes (TGSs) identified in the Over Size Over Mass Transport Management Plan and Route Survey (Uungula Wind Farm – Transport Management Plan) prepared by Rex J Andrews, (Version 8, August 2024) for Denman Bridge and Hunter Expressway are not able to be approved at this time.

Given that some of the aspects of the 'Port to REZ' project, including Denman Bridge and Hunter Expressway are being provided by independent third parties, such as EnergyCo, there is further consultation to be undertaken to confirm details of two Traffic Guidance Schemes provided in the current Over Size Over Mass Transport Management Plan and Route Survey appended to the Traffic Management Plan.

Accordingly, as nominee of the Planning Secretary, I approve the Traffic Management Plan (Version 004B, dated 22 August 2024) with the following conditions:

- The proponent must maintain ongoing consultation in relation to Denman Bridge and Hunter Expressway Traffic Guidance Schemes with TfNSW, DPPI and EnergyCo.
- The proponent must submit a letter report, via the Major Projects Portal for Secretary acknowledgement, every two months, detailing progress, and any consultation updates.
- An updated Traffic Management Plan (Oversize Overmass Transport Management Plan Appendix) will be required to be submitted at least six weeks prior to travel via the Major Projects portal, for Planning Secretary review and approval.

Please ensure you make the document publicly available on the project website at the earliest convenience.
